Bean container / optionally expandable to	260 g / 730 g
Coffee grounds container (portions)	max. 40
Water tank	5.7 l

Facts and figures

Weight	13.6 kg
Dimensions (W x H x D)	41 x 47 x 39 cm
Cable length	approx. 1.1 m
Amperage	10 A
Voltage	220–240 V/50 Hz
Power	1350 W
Tests	CE Ⓢ

Latte macchiato and Cappuccino at the touch of a button

Design

Ecological intelligence

All-round coffee solution

PROFESSIONAL

Proven, coveted, durable

Mention the word 'coffee' today and people no longer think of just espresso or milk coffee but also popular favourites like latte macchiato or cappuccino. A trend that now extends itself to boutiques, offices and the catering sector. So the fact the IMPRESSA Xs9 Classic produces no fewer than twelve different coffee types – including latte macchiato – at the touch of a button is welcome news. And thanks to its compact dimensions and lightweight (13.8 kg), the machine delivers the mobility we associate with JURA.

Design

From the start it was clear that the design of the machine would have to reflect the quality and characteristics of our freshly prepared coffee specialities. Controls such as the selector with backlit pictograms, the Rotary Switch or the graphics display are not only eye-catching optical highlights but also an immense aid to navigation from the word 'go', not mention to the illuminating light for your coffee preparation.

Ecological intelligence

The IMPRESSA Xs9 Classic helps relieve the strain on the environment and your budget. Thanks to Energy Save Mode (E.S.M.®) the machine uses up to 40% less energy and, if you so wish, switches automatically to standby mode after a certain time. JURA is therefore already complying with the strict statutory values which will come into force in 2013 (maximum permitted: 0.5 W).

One-Touch technology

For most of us, enjoying a well-made cup of coffee is one of life's daily pleasures. With the unique One-Touch technology by JURA even speciality coffees with milk are no longer time-consuming. The IMPRESSA Xs9 Classic delivers cappuccino or latte macchiato at the touch of a button, with no need to move the cup.

An all-round coffee solution

Using optional modules such as the Cup Warmer, with a matching milk cooler or an accounting interface, the machine can be upgraded into an all-round coffee solution or optimized for self-service areas. Even people with little or no experience of coffee machines will find it a snap to operate because the controls are intuitive and easy to understand. The programming buttons are concealed discreetly behind a flap. And if circumstances require, these can even be blocked to only be accessible to specific users.

IMPRESSA Xs9 Classic
